

Guest Lecture on “Hands-on ReactJS for Beginners: Build Your First React App”

The Department of Computer Science, Era University organized an insightful guest lecture on “Hands-on ReactJS for Beginners: Build Your First React App” on 23rd April 2026 at BCA LT-01, 3rd Floor from 11:00 AM to 01:00 PM.

The session was conducted by Mr. Abhishek Shrivastava, who shared valuable knowledge and practical insights into modern web development using ReactJS. The lecture was specially designed for beginners to help them understand the fundamentals of ReactJS and guide them in building their first React application.

The program was convened under the guidance of Prof. (Dr.) Santosh Kumar, Head of the Department of Computer Science. Faculty members and students enthusiastically participated in the event and actively interacted with the guest speaker throughout the session.

During the lecture, the speaker explained important concepts such as:

- Introduction to ReactJS and its significance in modern web development
- Components and JSX
- State and Props
- Creating and running a basic React application
- Advantages of using React for front-end development

The hands-on approach of the session enabled students to gain practical exposure to ReactJS development. The interactive demonstration and real-time coding exercises enhanced students’ understanding and generated keen interest in front-end technologies.

The lecture also emphasized the growing demand for ReactJS developers in the software industry and highlighted the importance of practical skills in securing career opportunities in web and application development. Students were encouraged to work on real-time projects, participate in coding activities, and continuously upgrade their technical knowledge to meet current industry requirements. The speaker also addressed students’ queries regarding career paths in front-end and full-stack development, making the session highly engaging and career-oriented.

The event concluded with a vote of thanks to the guest speaker for sharing his expertise and motivating students to explore emerging technologies and career opportunities in full-stack web development. The session proved to be highly informative, interactive, and beneficial for all the participants.
