

National Conference

**Sustainable Environment:
Challenges and Opportunities**

29th & 30th August, 2022

**Organized by
School of Liberal Arts and Sciences
Era University, Lucknow**

Concept note

Environment provides the resources mandatory for all life forms to exist on the Earth. The increased magnitude of environmental problems, however, has challenged the availability of natural resources and their services. The concern for resource degradation and depletion has been recognized at both National and International levels, and therefore, the urge for developing "Sustainable Environment" has gained momentum. Sustainable environment aims to ensure the availability of natural resources to present as well as future generations. The main objective of this conference is to bring into limelight, the challenges and new opportunities related with the attainment of "Sustainable Environment". This conference provides a forum to distinguished speakers all over the country to address the issues and challenges, recent progress and discuss the new ideas and concepts for achieving the goal of Sustainable Environment. Moreover, this forum will enlighten young minds and encourage them to develop new ideas.

About Lucknow

Lucknow is an admixture of ganga - jamuni tehzeeb. It is known for architecture, fascinating bazaars, delicious cuisine and chikankari. The city rose to prominence as the home of the Nawabs of Oudh, who were great patrons of the culinary and other arts, particularly dance and music. The city features wide boulevards, epic monuments and several parks and gardens that contribute to an atmosphere of faded grandeur. As the capital of Uttar Pradesh, Lucknow is the centre for social and political affairs.

Era University

Era University is one of the best private universities in Lucknow. Situated at Sarfarazganj, Hardoi Road, Lucknow, Uttar Pradesh. Established in the year 2018, the University believes in excellence in teaching and learning. Era University seeks to develop students of distinction. Era takes pride in its unique inside-out approach because this is the core foundation of creating enlightened leaders, empowered with the light to illuminate the world.

School of Liberal Arts and Sciences

School of Liberal Arts and Sciences provides an interdisciplinary approach of learning for students along with the freedom and opportunity to study and explore a variety of subjects of science and humanities. Era is the first university of Uttar Pradesh to introduce this program under the banner of School of Liberal Arts and Sciences. Interdisciplinary approach inculcates the orientation necessary to solve multi-dimensional global issues.
