

'GYAN MANTHAN'

In an interactive series to introduce the students of Era University, Lucknow to various skills and flavours of life under a program "GYAN MANTHAN", Era University, Lucknow is conducting various informative sessions.

On 12th December 2020, 12 o'clock noon Prof. (Dr.) A. K. Srivastava, from Department of Community Medicine, Era University, Lucknow addressed the students on the topic "**Health Related Govt Schemes & Public Health Care System: Roles and Hierarchy**" through blended (online+offline) mode in this series. Through this session the students were informed about the various schemes of government for eradicating various diseases, malnutrition, for general healthcare and for financial assistance. The students also were explained about the role of various tiers of health care system and their need in society. Observing the high attendance and interest of students, another session covering more details of this topic would be conducted soon. Keep Checking!
